

Cloud Accounting.

Secure. Live. Smart.

Cloud based accounting is revolutionary new way for businesses to do business. Beautifully designed and easy to use, it's a straightforward way to manage your business. The concept is quite simply, cloud computing is the offering of applications and services over the internet, on demand, wherever you are in the world, as if it were installed locally.

A leading cloud accounting product is Xero and Waterford Accountants are proud to be recognised as a partner.

Not only does Xero provide a complete financial solution for your business is also offers many specialist add on applications that have been developed to integrate seamlessly with Xero. These add-ons, known as 'Software-as-a-Service' or SaaS, can be added on as needed, to suit your specific business model.

Here are some reasons why Xero is changing the way businesses manage their money:

- Anywhere, anytime - 24/7 access from any internet connection in the world (even via your iPhone or other mobile devices)
- Real-time view of your cashflow and bank balances
- Automated daily bank feeds - no more cumbersome manual entries of bank transactions
- Connect with your customers - send invoices and get paid all online
- Full Payroll functionality with Employee Portal and integrated timesheets
- Connect to add-on apps
- Real-time collaboration with your Accountant - sharing the same data at the same time
- No hardware installations, manual back-ups or maintenance/support costs - saving you time and money
- Software upgrades while you sleep...for free
- No cumbersome transfer / sharing of data files that can be corrupted or out-of-date
- Cashflow friendly with predictable monthly subscriptions
- Free up your time to focus on your core activities

Waterford Accountants can help you make the choice that suits your business and usage profile.

Until recently, such functionality was only available through very costly enterprise solutions for large businesses. Now, you can find a flexible solution to suit your business, paying only for the functionality you need AND it's all integrated. Functionality such as CRM, Inventory Management and Point of Sale - all feeding directly into Xero. We have expertise in these applications and can setup your business and train your team on how to use them.
